Travel the Galaxy,destroying extra-terrestrial beings an epace craft as you pass through numerous sectors. Refuel to continue your epace journey.
When you run into difficulties you activate the warp drive to go to light speed, but remember your enginee can only eurvive eight seconds. Your on-board computer relays fuel status, power levels, and exite from light space messages to you as you progress.

COSMOS. . . Just one of the CVS library of games.
